Art Unit: 2873

**DETAILED ACTION** 

1. An examiner's amendment to the record appears below. Should the changes and/or

additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR

1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the

payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with

Mr. Joel Armstrong on 09/07/04.

The application has been amended as follows:

In the Abstract

Delete the abstract and substitute the following: --To provide a magneto-optic optical

device, such as a variable optical attenuator, an optical modulator or an optical switch, that is

small, has a low power consumption and has high speed. The above object is achieved by a

magneto-optic optical device characterized by comprising at least one magneto-optical crystal, a

magnetic field application mechanism for applying to the magneto-optical crystal a magnetic

field component in a direction vertical to a light entrance/exit plane, and at least one

electromagnet for changing a position where the magnetic field component applied to the

magneto-optical crystal becomes zero.--

In the Specification

On page 5, second line from the bottom, change "0" to --zero--.

Application/Control Number: 10/631,854 Page 3

Art Unit: 2873

In the Claims

In claim 1, last line, change "0" to --zero--.

In the Drawings

Figs. 13A and 13B should be labeled prior art.

2. The following is an examiner's statement of reasons for allowance: The reference Umezawa et al (5521741) in fig. 6 shows for a magneto-optic optical device the magnetic field going to zero, but does not have a means for changing the position where the magnetic field component applied to the magneto-optical crystal goes to zero. Note: The reasons for examiner's amendment, the abstract was too long and didn't capture the essence of the claims, and claim 1 is clearer and searchable writing out the value of the magnetic field.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Richard Hanig whose telephone number is 571-272-2329. The examiner can normally be reached on M-F: 8:00-4:30.

Application/Control Number: 10/631,854

Art Unit: 2873

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Georgia Epps can be reached on 571-272-2328. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
